Pressure Ulcers To Be or Not to Be: F314 & MDS 3.0

September 1, 2010

8:30 a.m. – 4:30 pm

**Drury Inn & Suites Hotel
5505 Mills Civic Parkway
West Des Moines, Iowa 50266**

Pressure Ulcers to Be Or Not to Be: F314 & MDS 3.0

GENERAL INFORMATION

STATEMENT OF PURPOSE:

Long term care facilities are charged with compliance of the Center for Medicare & Medicaid regulatory guidelines and the most current clinical standards of practice for the management of pressure ulcers. This educational program has been developed to assist the clinician in understanding the clinical aspects of the Center for Medicare and Medicaid Services guidance regarding pressure ulcers and the F314 Tag. The guideline revision greatly expands the need for comprehensive documentation and aggressive pressure reduction measures. Teaching material is based upon these guidelines/standards and will review the changes in clinical practice of pressure ulcers management and the survey investigational process. The goal is to improve communication and understanding concerning pressure ulcer prevention, management for residents with an ulcer and reducing the occurrence of pressure ulcers in the long term care setting. A review of the MDS 3.0 definitions, etc. will also be included.

INTENDED AUDIENCE:

Director of Nursing, Assistant Director of Nursing, Wound Nurses, MDS Coordinators, Medical Directors, Other interested staff

OBJECTIVES:

- Describe the avoidable/unavoidable decision tree to assist the healthcare provider in understanding the difference between the two types of ulcers.
- Identify critical element pathways to assist the healthcare provider in understanding the F-314 Tag.
- Identify risk factors which could lead to the development of pressure ulcers and use of a standardized risk factor assessment tool.
- Describe wound bed preparation to create a stable microenvironment.
- Explain interventions and the plan of care including monitoring with accompanying documentation when a complication or change has been identified.

AGENDA:

8:30 – 9:00 -	Registration
9:00 - 10:30	Presentation
10:30 10:45	Break
10:45 - 12:15	Presentation
12:15- 1:15	Lunch
1:15 - 2:45	Presentation
2:45 - 3:00	Break
3:00 - 4:30	Presentation/Q/A

Pressure Ulcers to Be Or Not to Be: F314 & MDS 3.0

PRESENTER:

Chuck Gokoo MD, CWS FACCWS

Dr. Gokoo is the Chief Medical Officer for American Medical Technologies (AMT). Early in his 30 year medical career, he recognized a need for evidence based interventions in wound management. This led to his collaborating with specialists in conducting large outcome-based clinical trials for the medical/wound care products industry. Recognizing a need for practical application, he transitioned these needed strategies by providing education to numerous clinicians in the field of wound management. Dr. Gokoo is published and is a noted key figure speaker at national and international society meetings regarding the many aspects of wound care. He is a member of multiple professional organizations and editorial boards, a Diplomat of the American Academy of Wound Management and a founder as well as a Fellow of The American College of Certified Wound Specialist.

CONTINUING EDUCATION

- **Nursing Home Administrators** – 6 hrs (This program is intended to meet the criteria established by the Iowa Board of Examiners for Nursing Home Administrators. If audited, you will be asked to provide your certificate of attendance and program material.)
- **Iowa Board of Nursing Provider #67** – .72 CEUs (retain certificate for four years)
